The environmental choice:

We believe the best way to reduce waste is to design products that last a long time. Our commitment to sustainability is reflected in every aspect of our product design, ensuring they remain functional and stylish for years to come. Classic, timeless designs never go out of fashion, making our products a wise investment for the future.

But there is more to our products than just their reliability. Did you know that stainless steel is made up of 60% recycled content? This remarkable material can be recycled countless times without any loss of quality, making it an excellent choice for environmentally conscious consumers.

Moreover, our products are manufactured in a factory powered by solar energy. This commitment to renewable energy reduces our carbon footprint and supports a cleaner, greener planet. By choosing our products, you're not only investing in quality and durability but also making a positive impact on the environment.

Dudley Industries, experts in hand hygiene dispensers since 1942.

We have over 80 years of experience in designing and manufacturing washroom dispensers, so you're in good hands. All our dispensers are designed by our team of engineers and made on site at our Lancashire factory. From here, we serve a global market and our products can be found in the most prestigious addresses around the world.
